AZURE CERTIFICATION COURSE (DP-700)

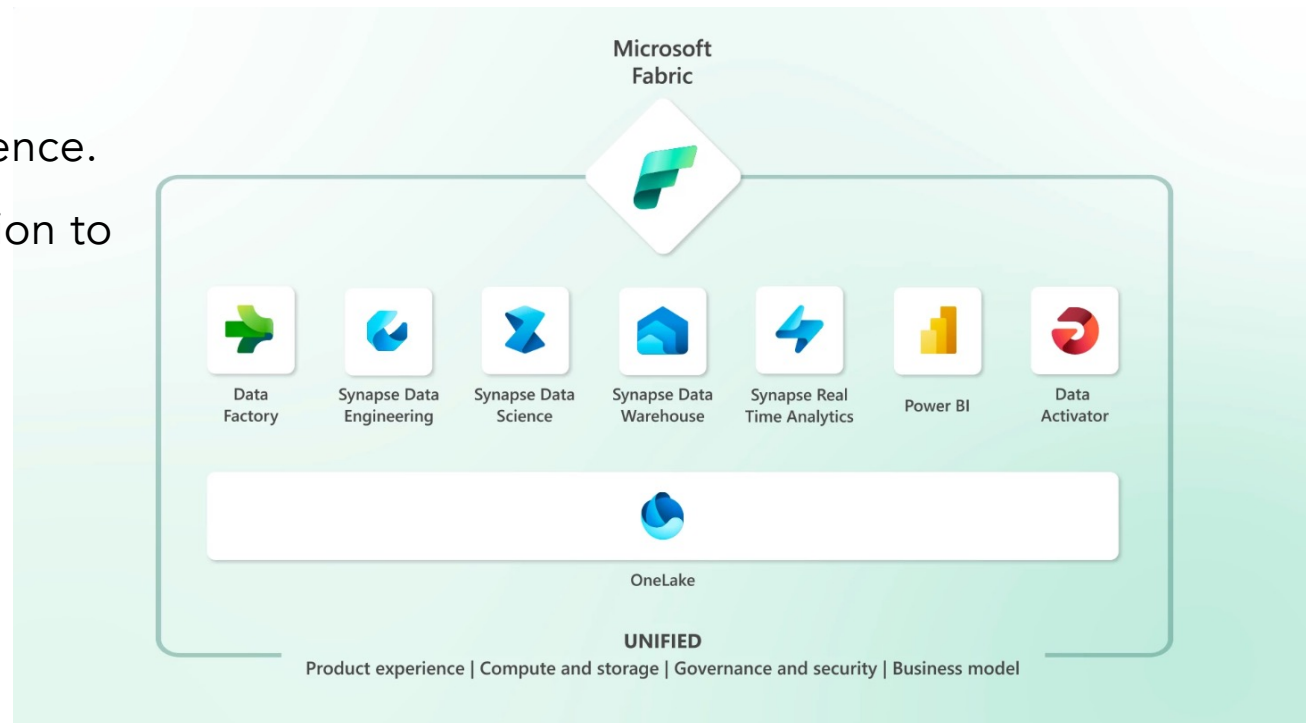

Azure Fabric Data Engineer Associate

Data Workflow

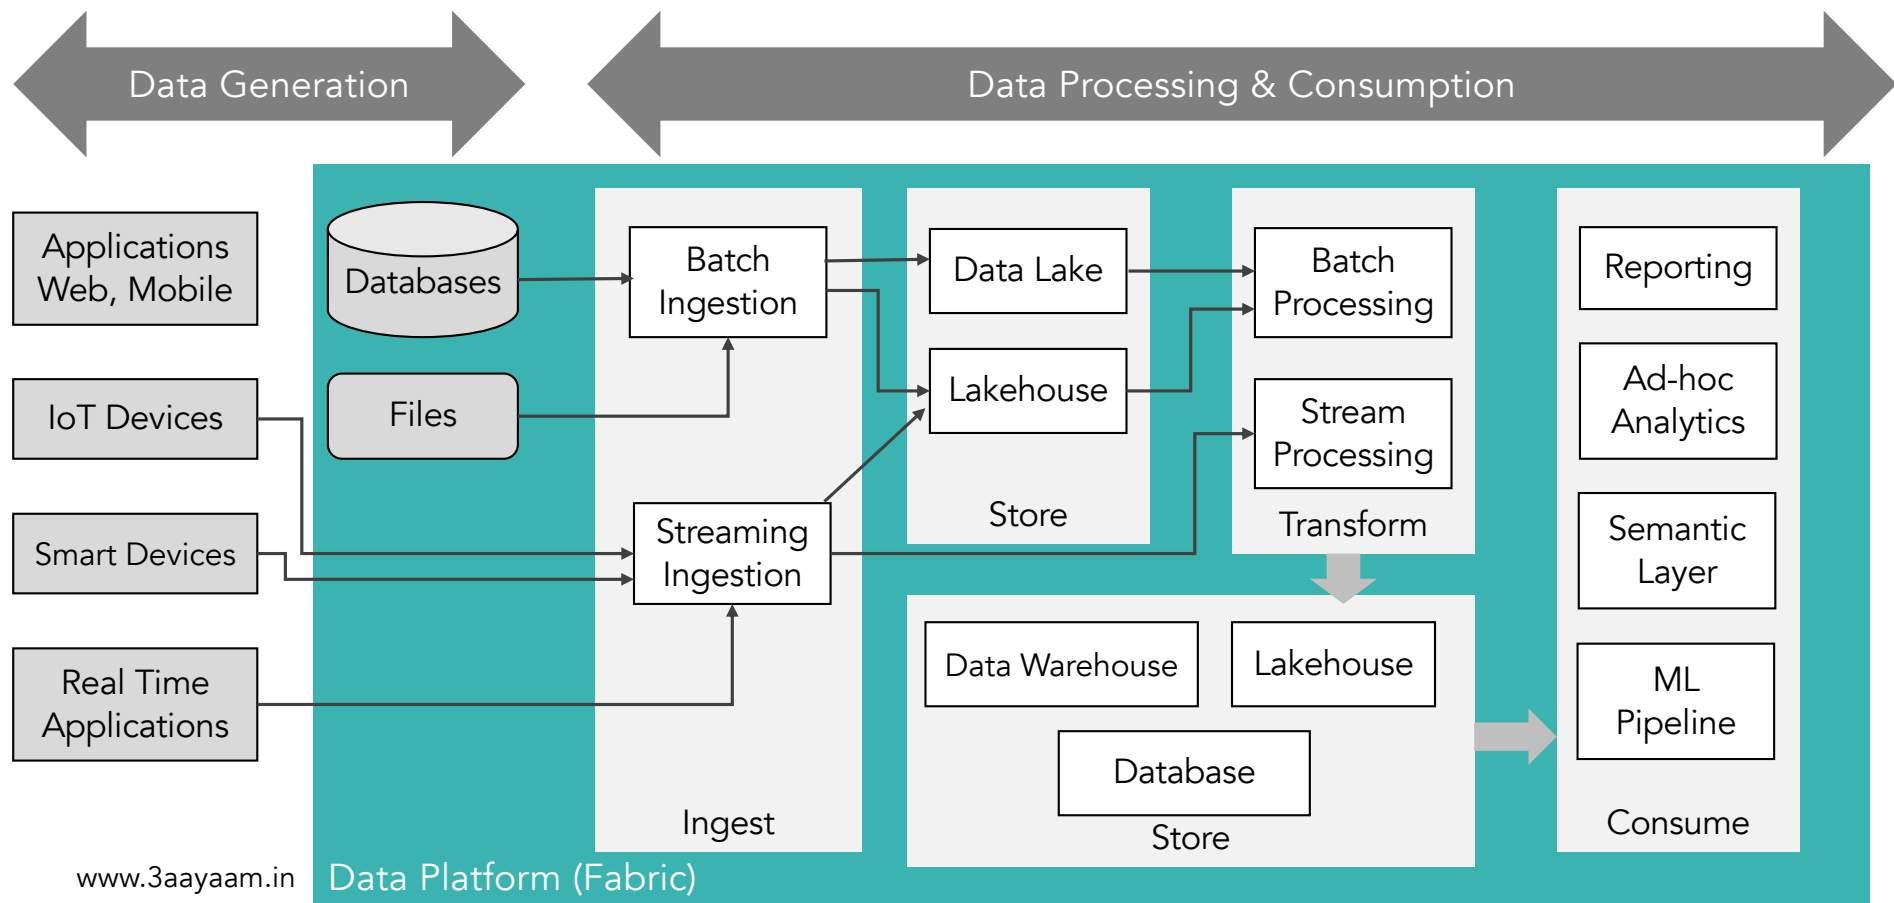

What is Fabric

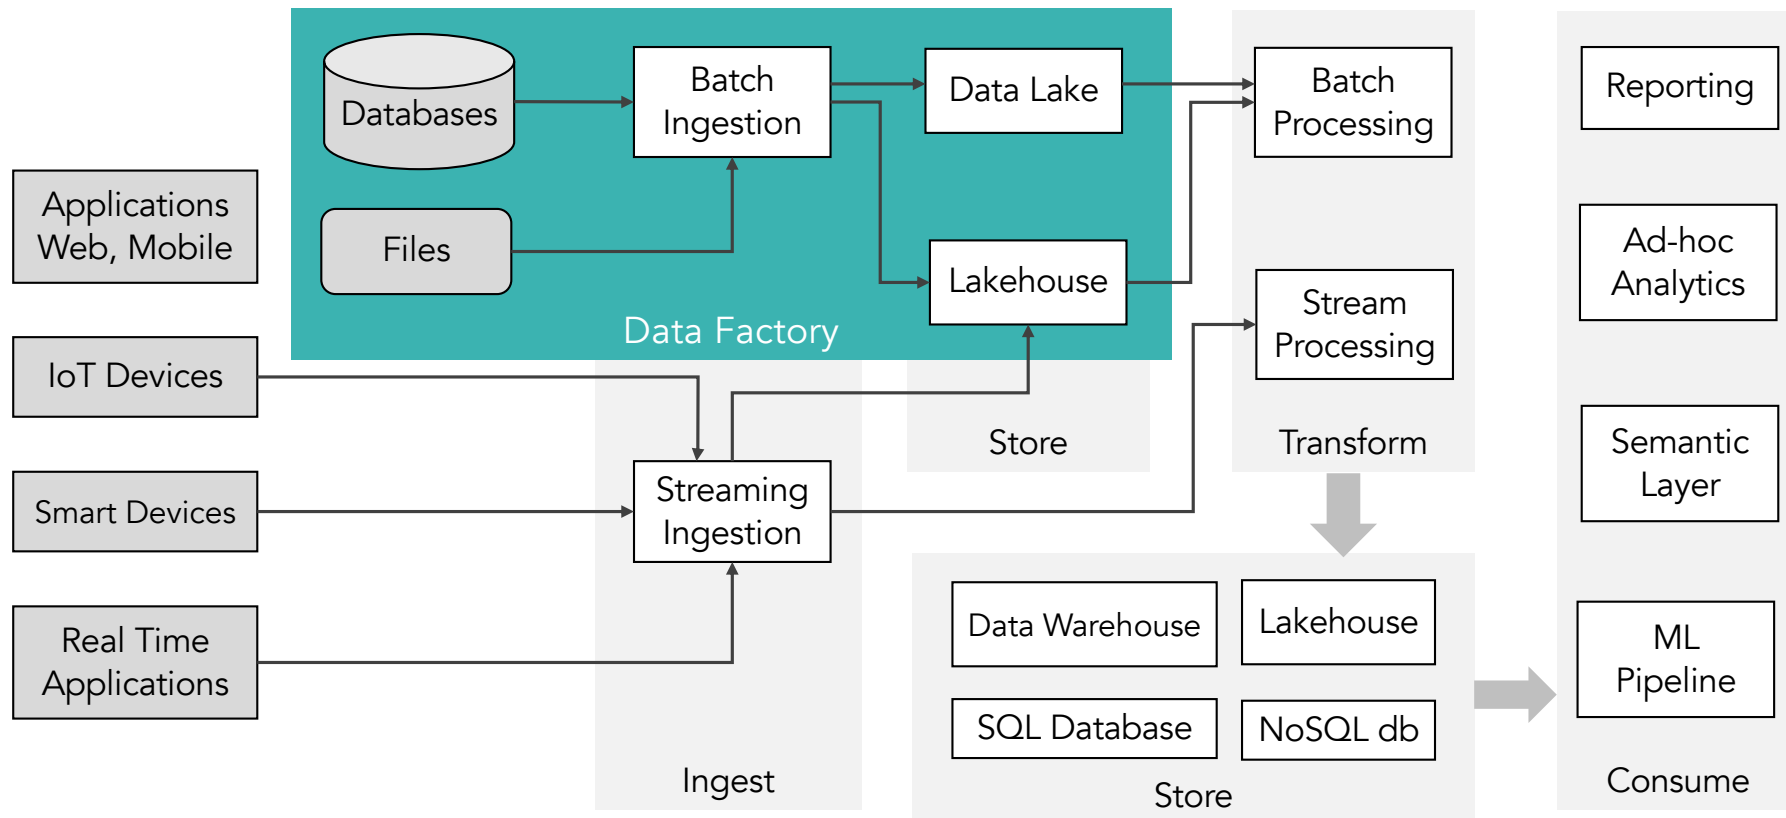

- SaaS Data Platform.
- No Code/Low Code experience.
- Integrated from data ingestion to reporting.
- OneLake – ADLS Gen2.

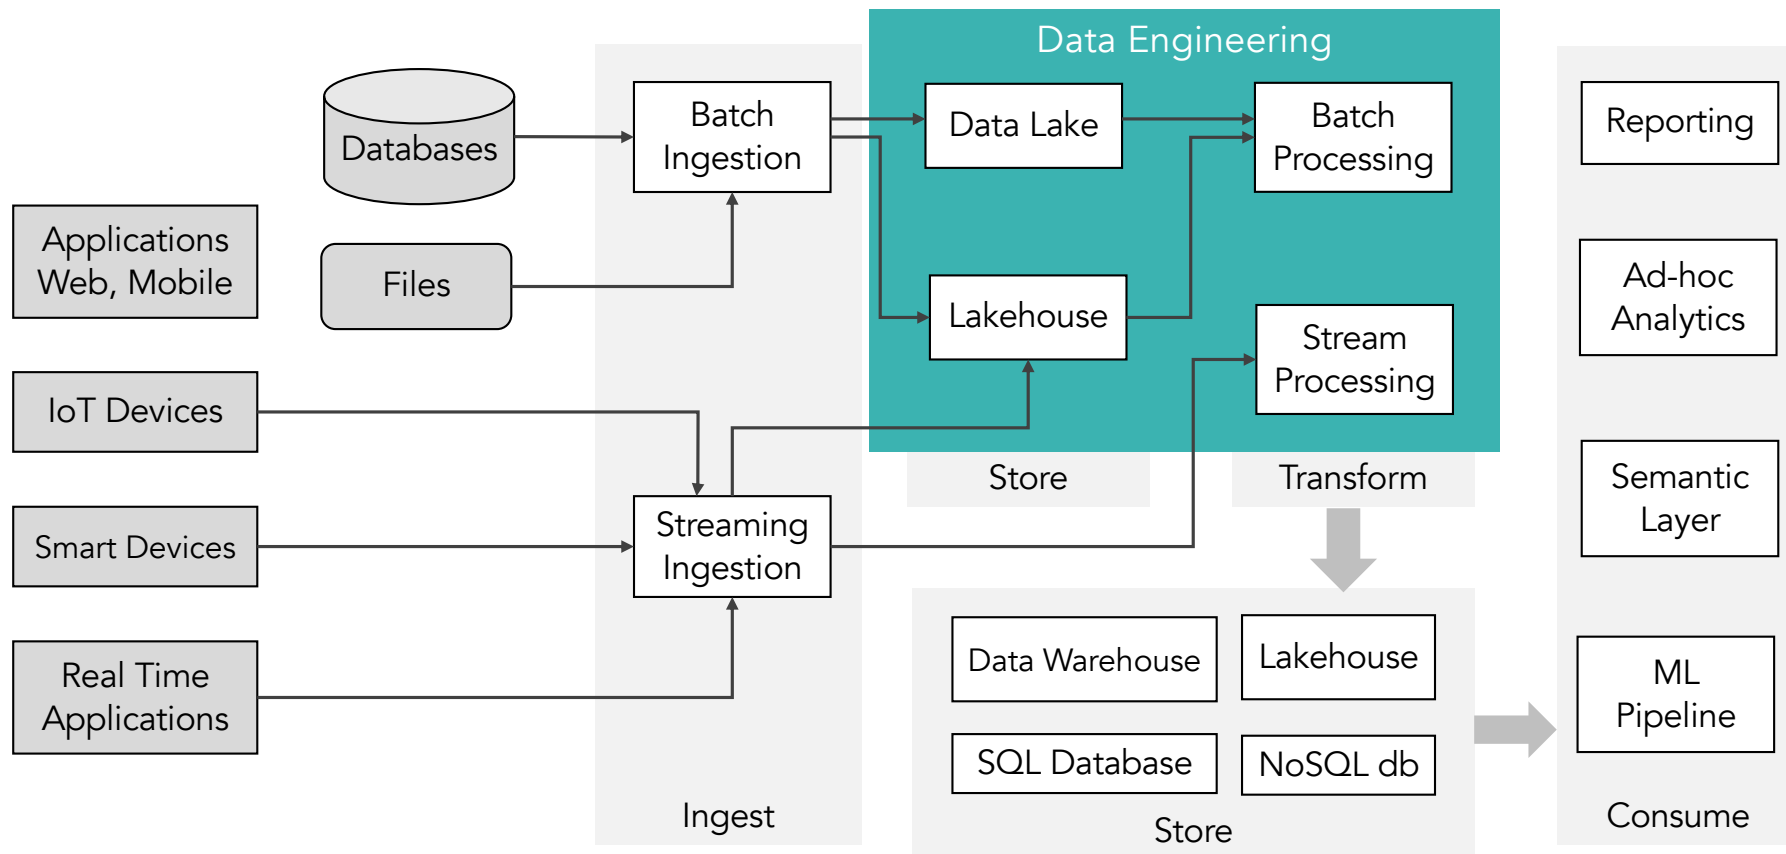

Fabric Data Platform

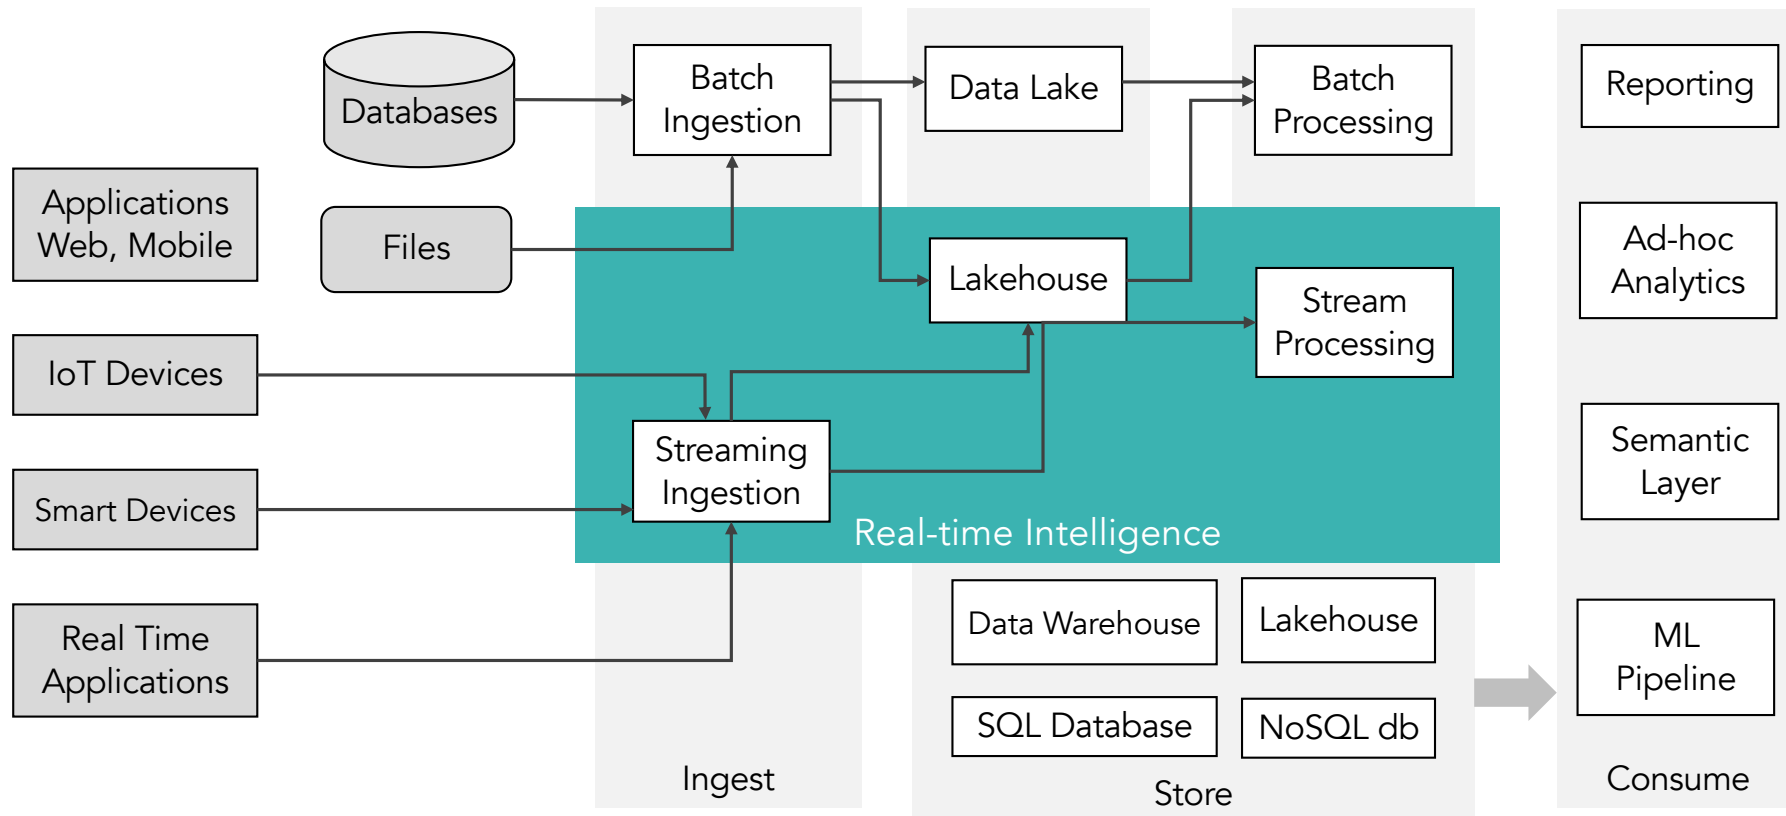

Fabric Workloads

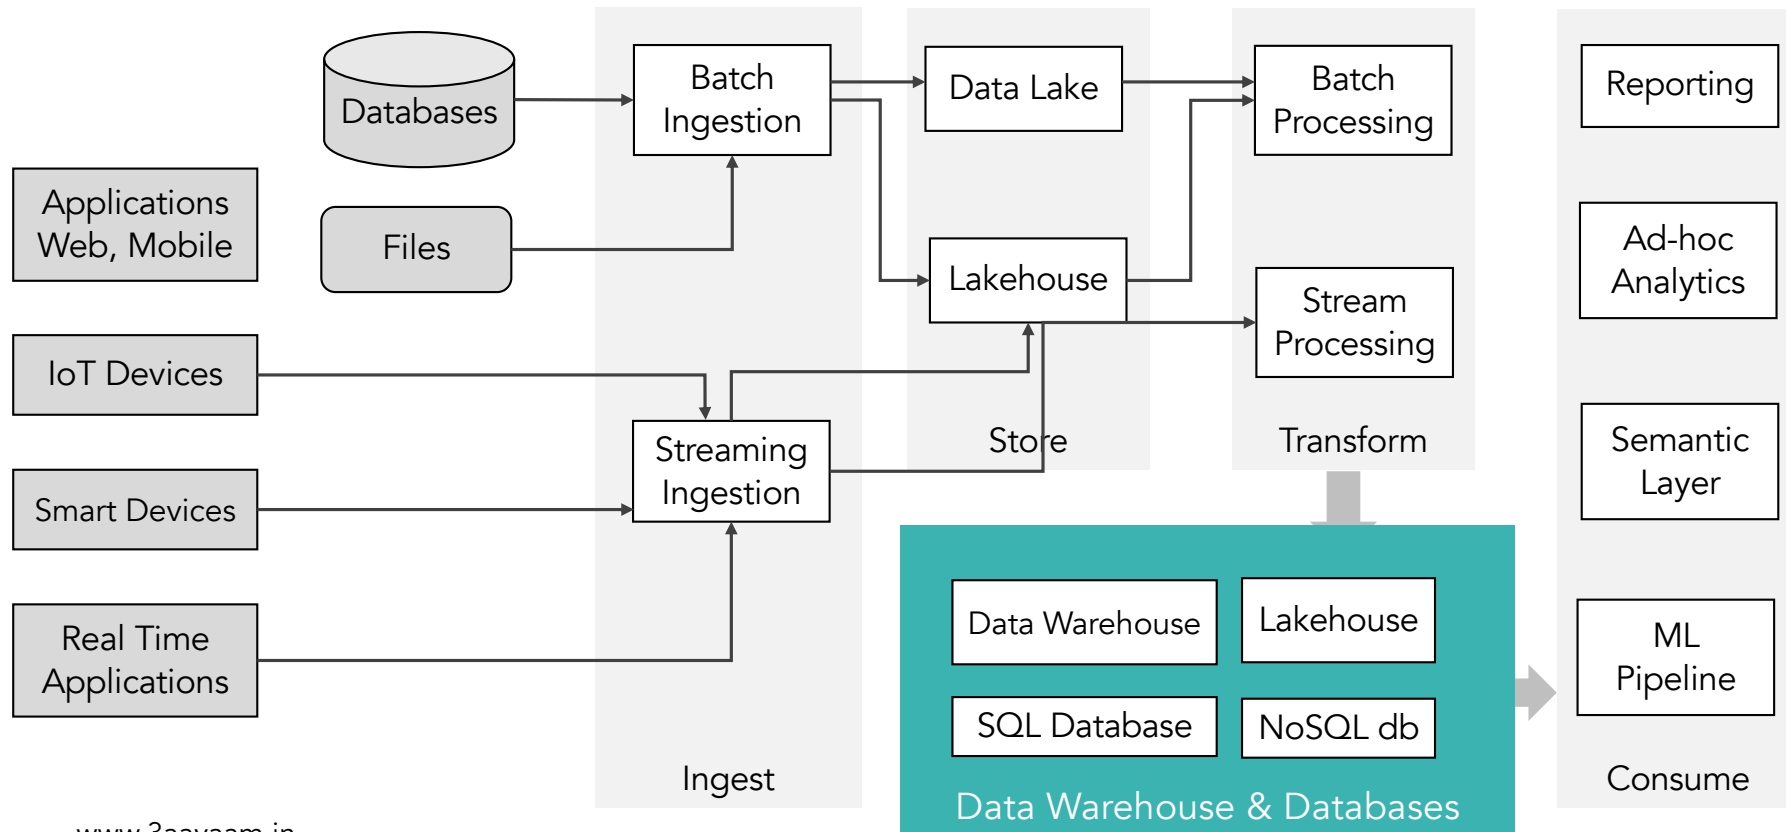

Fabric Workloads

Fabric Workloads

Fabric Workloads

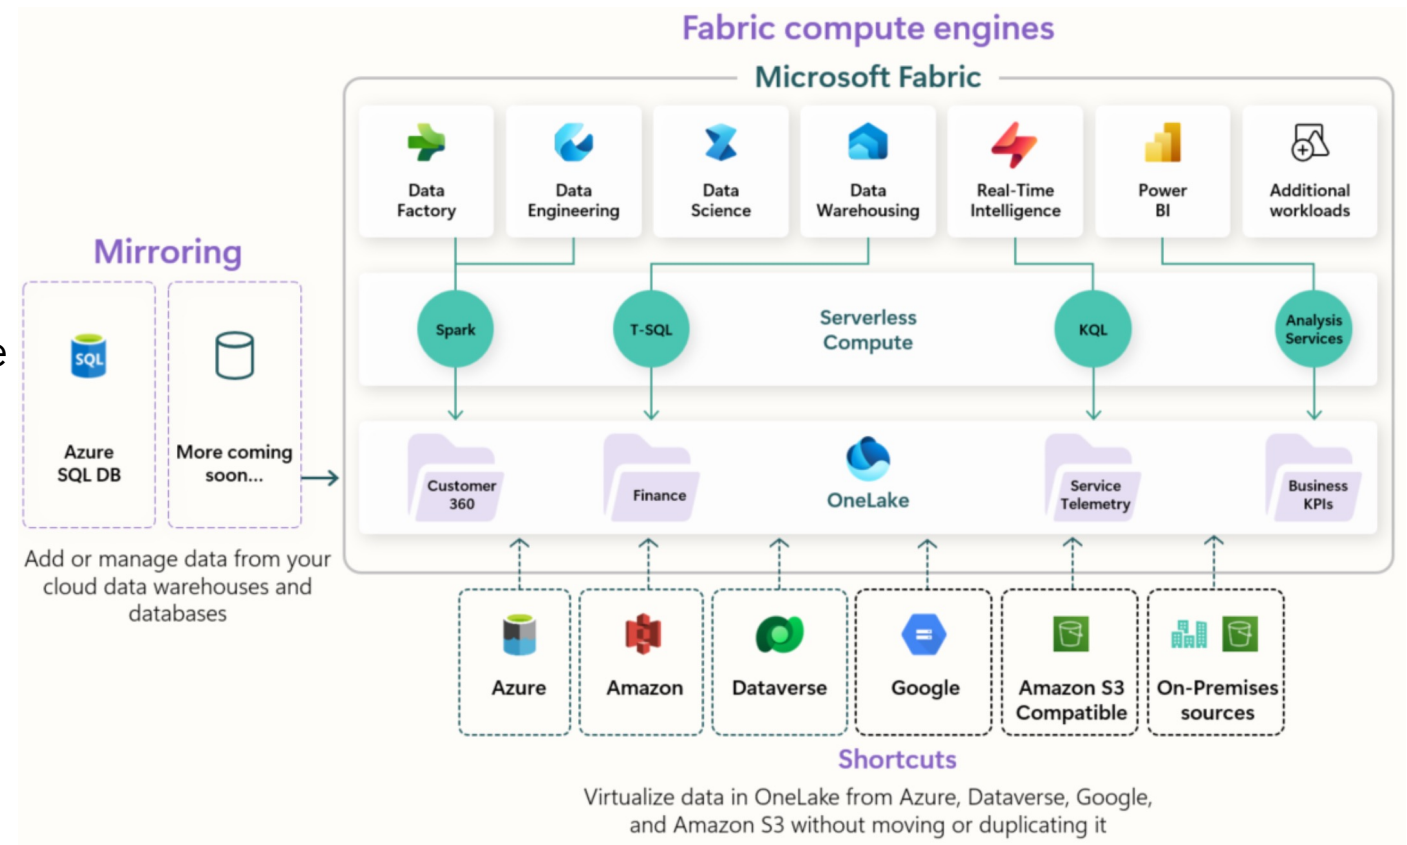

Fabric Components

- Fabric Databases – OLTP databases. Data can be replicated from various other data sources into Fabric.
- Fabric Data Factory – Ingest data from data sources.
- Fabric Real-Time Intelligence – Streaming data processing. Real-time applications, IoT devices, smart devices etc.
- Fabric Data Engineering – Data processing using Spark using jobs and notebooks.
- Fabric Data Warehouse – Warehouse on data lake.
- Fabric Data Science – Used to build, deploy ML models from Fabric using integration with Azure ML.
- Power BI – Create dashboards, reports, charts using data in Fabric.

OneLake

- Single storage for all data.
- Built on ADLS Gen2.
- All Fabric engines/workloads use OneLake.

Explore Console

- Login with Azure user.
- Let's explore fabric console.
- Make 3aayaam-fabric as admin.

Fabric Capacity

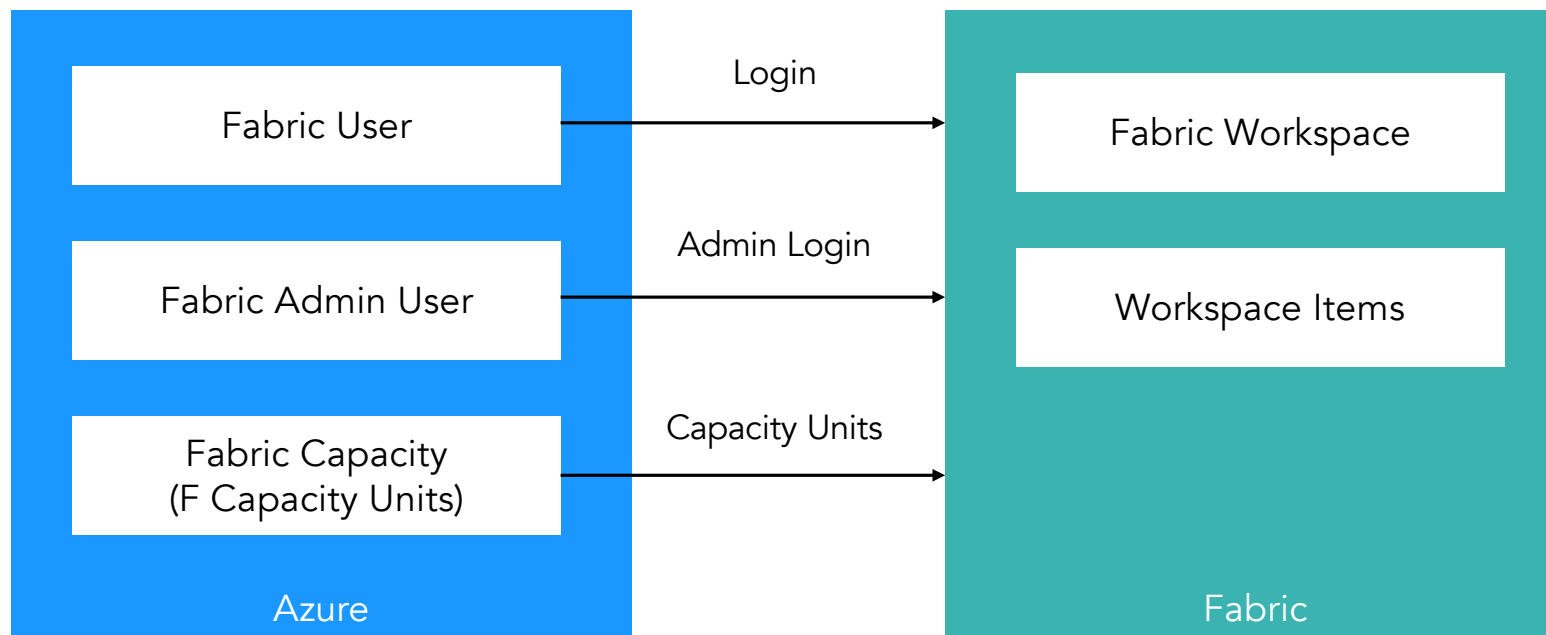

- Capacity = Compute Resources for Fabric.
 - CPU + Memory + IOPS + Storage
- Stock Keeping Units (SKUs).
- Capacity Units (CUs) = Compute power for each SKU.
- MS does not provide any direct correlation between CU and CPU power.
- Azure admin with non-personal account can create Fabric capacity.
- F capacity or Trial Fabric is needed to work on Fabric items.

3aayaam-fabric
(Tenant)

Capacity

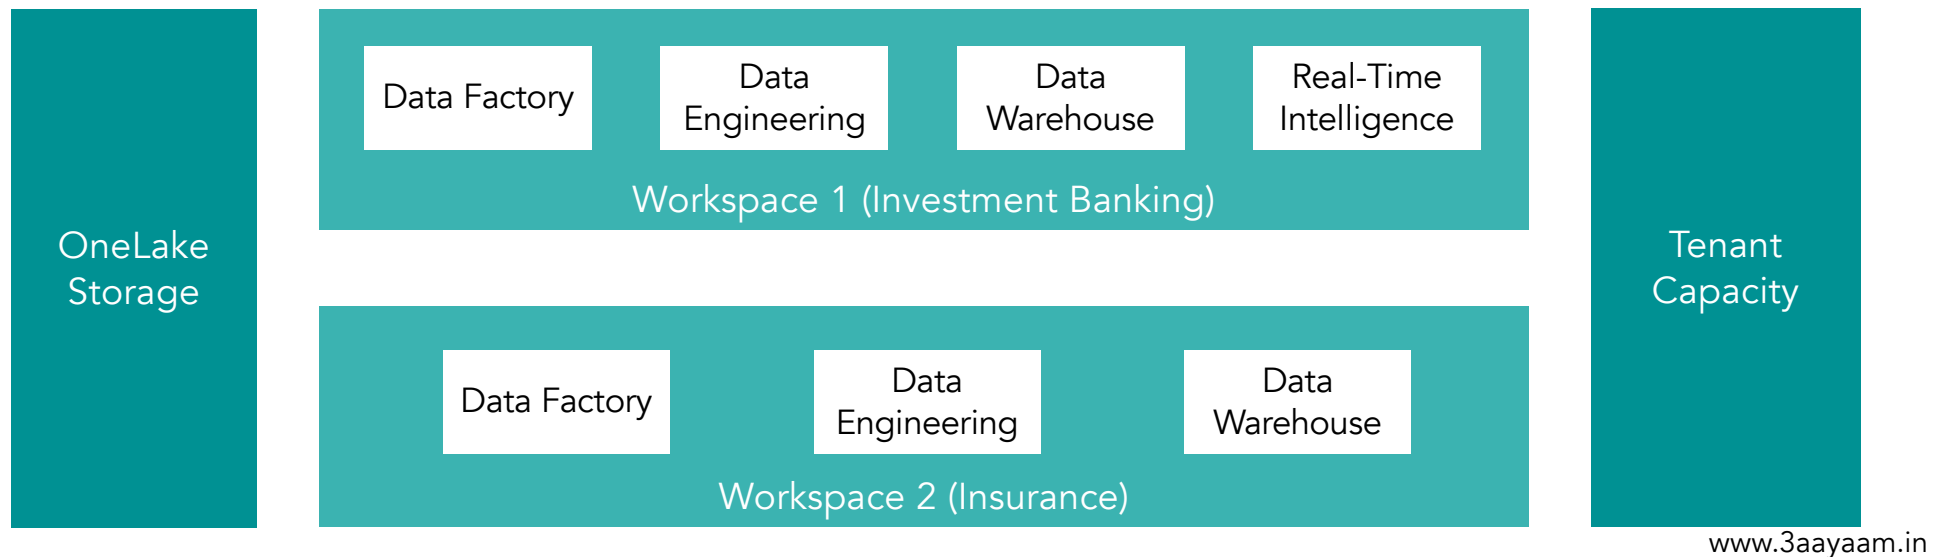

SKU	Capacity Units (CUs)
F2	2
F4	4
F8	8
F16	16
F32	32
F64	64
Trial	64
F128	128
F256	256
F512	512
F1024	1024
F2048	2048

Create Fabric Capacity

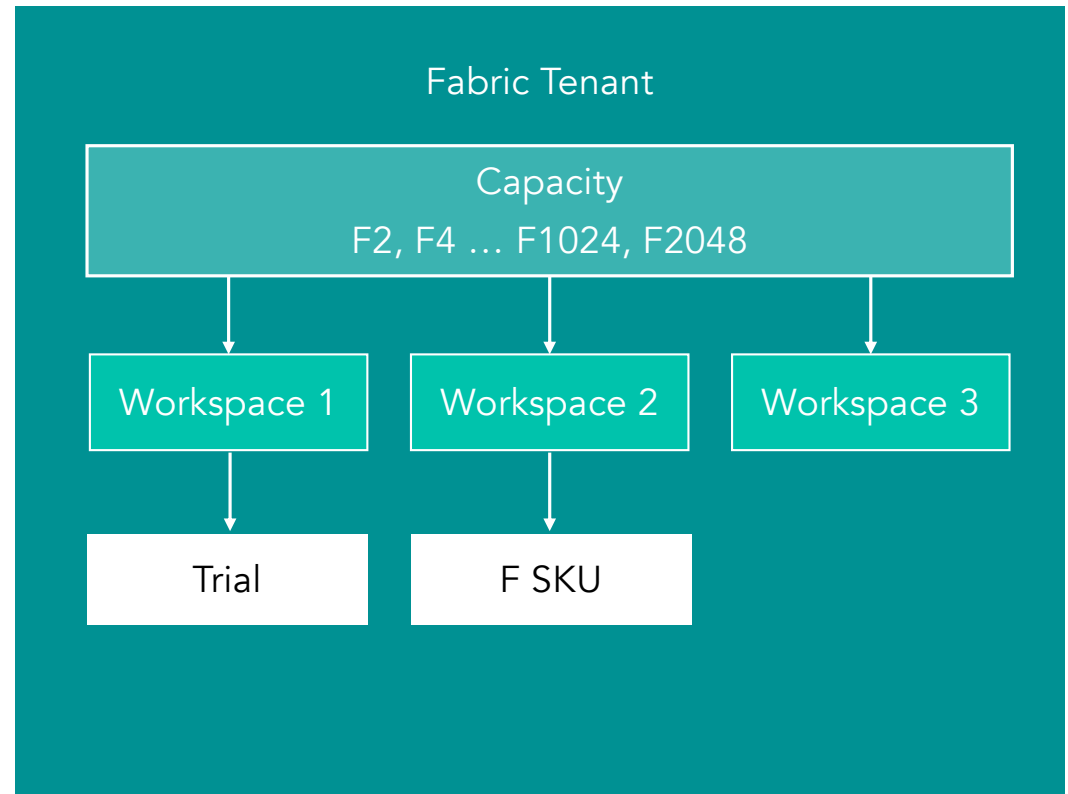

Workspace

- Combination of multiple workloads in a single place. Similar to Azure Resource Groups.
- Data Mesh Architecture.
- Create workspace.

Fabric License

- Tenant.
- Capacity.
- Workspace.
- Workspace Licenses.
 - Pro, Premium per-user (PPU), Embedded – Power BI.
 - Premium per capacity (P SKUs) – Mostly Power BI, Fabric viewer.
 - Fabric Capacity (F SKUs) – Fabric.
 - Trial – Fabric trial.

Summary

- Fabric SaaS Data Platform
- Fabric Workloads
- Fabric Components
- OneLake
- Fabric Capacity & License
- Workspace

Thank you
